Poonam,

It was great to talk with you yesterday. I just wanted to let you know that Soitec has asked me to hold off on running the revisions to the Air Quality Study by you until some revisions to the project description and plot plan are worked out. The primary change is that they are adding in a new road from the Vista Oaks property to the Thibodeau property. The changes being contemplated should not have an effect on the outcome of the air quality analysis, though. I hope to see you soon and I'll keep you posted.

Take Care,

Mike
